

Course Unit	Biostatistics II		Field of study	Statistics	
Bachelor in	Dietetics and Nutrition		School	School of Health	
Academic Year	2019/2020	Year of study	2	Level	1-2
Type	Semestral	Semester	1	ECTS credits	5.0
Code	8149-501-2101-00-19				
Workload (hours)	135	Contact hours	T -	TP 52	PL -
			TC -	S -	E -
			OT 11	O -	

T - Lectures; TP - Lectures and problem-solving; PL - Problem-solving, project or laboratory; TC - Fieldwork; S - Seminar; E - Placement; OT - Tutorial; O - Other

Name(s) of lecturer(s) António José Gonçalves Fernandes

Learning outcomes and competences

At the end of the course unit the learner is expected to be able to:

1. delineate and to analyze data through the main methods and statistical techniques in the field of the natural and social sciences
2. collect data in an appropriate way
3. recognize the importance of a correct experimental methodology
4. identify the sampling process
5. identify the appropriate statistical test, tends into attention the nature of data and the study's objectives
6. dominate the fundamental concepts of data analysis
7. interpret, correctly, the results

Prerequisites

Before the course unit the learner is expected to be able to:
Don't have

Course contents

I - Non Parametric Tests I. 1. Introduction I. 2. Localization tests for two or more samples I. 3. Association tests II - Parametric Tests II. 1. T-Student test II. 2. One Factor Variance Analysis.

Course contents (extended version)

1. Non Parametric Tests
 - Introduction
 - Localization tests for two samples: Sign; Wilcoxon; McNemar; Mann-Whitney-Wilcoxon
 - Localization tests for more than two samples: Kruskal-Wallis; Friedman; Q-Cochran
 - Association tests: Spearman Ordinal Correlation test; Pearson Chi-square test
2. Parametric Tests
 - Introduction
 - T-Student test Two independent samples; T- Student Two related samples.
 - One Way ANOVA: Fixed effects ANOVA ; Random effects ANOVA; Random blocks ANOVA

Teaching and learning methods

Expository methodology; Interactive methodology Demonstrative methodology.

Assessment methods

- Alternative 1 - (Regular, Student Worker) (Final, Supplementary, Special)
- Final Written Exam - 100%

Language of instruction

Portuguese
