

Course Unit	Information Systems and Decision Support		Field of study	Computer Science	
Bachelor in	Veterinary Nursing		School	School of Agriculture	
Academic Year	2019/2020	Year of study	2	Level	1-2
Type	Semestral	Semester	2	ECTS credits	5.0
Code	9085-408-2204-00-19				
Workload (hours)	135	Contact hours	T 15	TP -	PL 30
			TC -	S -	E -
			OT 20	O -	

T - Lectures; TP - Lectures and problem-solving; PL - Problem-solving, project or laboratory; TC - Fieldwork; S - Seminar; E - Placement; OT - Tutorial; O - Other

Name(s) of lecturer(s) **Pedro Miguel Lopes Bastos**

Learning outcomes and competences

At the end of the course unit the learner is expected to be able to:

1. Explore the full potential of computer processing, providing it with knowledge and practices in various generic tools.
2. Get full integration in the current context of Information Systems, enabling it to act consciously in themes such as Information System planning, development, operation and management.
3. Get all the databases general concepts. Databases architecture and functionality.
4. File system management and Databases system management. Relational databases. Models for the development of databases. Entity and Relationship Model.

Prerequisites

Before the course unit the learner is expected to be able to:
Not applicable

Course contents

Operating systems, information systems, software, databases and Databases system management.

Course contents (extended version)

1. Operating systems
 - Operating systems parts, types, functions, file system maintenance, communications.
2. Information systems
 - Data and Information; Information systems, Information System planning and development.
3. Software
 - Microsoft Excel; formulas and functions; Databases; Drafting and editing graphics; Macros; Forms.
4. Databases
 - Microsoft Access databases, databases systems management, relational model; standardization.

Teaching and learning methods

Classes with provision of contents, and tutorial implementation examples. Learning of some informatics tools; Practical works for solidification of knowledge, based in some interim works.

Assessment methods

- Alternative 1 - (Regular, Student Worker) (Final, Supplementary, Special)
 - Final Written Exam - 50%
 - Practical Work - 50%

Language of instruction

Portuguese
